## EMERGENCY DISPENSING

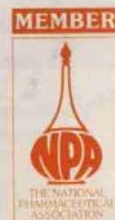

At night, on Sundays and Public Holidays  
please contact your local police

**DISPENSING**

**MEDICINES**

**FAMILY HEALTHCARE & ADVICE**

**Ask your Pharmacist.  
You'll be taking good advice.**

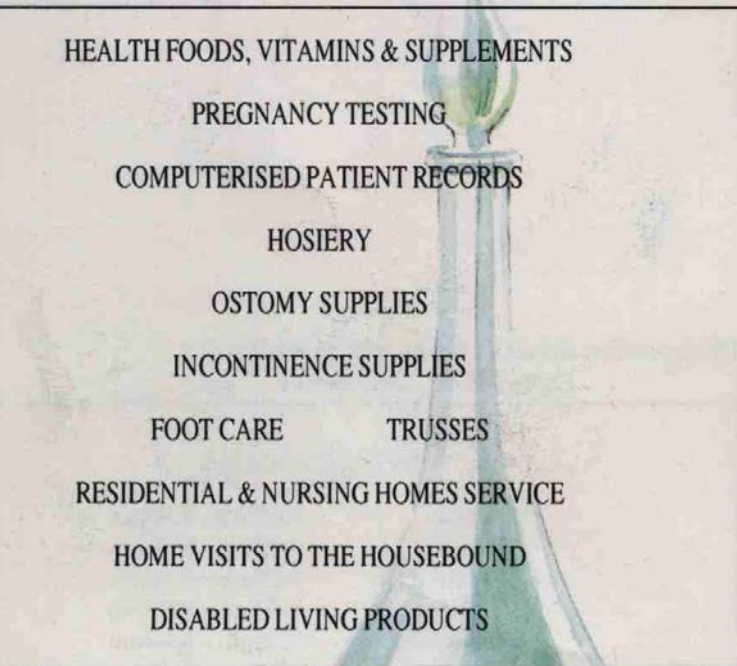

We dispense both NHS and private prescriptions. The pharmacist can tell you about medicines and how to use them safely. We will take back unwanted medicines and dispose of them for you.

A pharmacist is available to talk to you in confidence about common illnesses and healthcare and you will find leaflets in the pharmacy to give you information on all sorts of health topics.

We aim to give you the best possible service but if you have a complaint please speak to Mr R. Shukla or, if unavailable, the pharmacist in charge as soon as you can. The matter will be handled in line with the NHS national procedure. If we cannot resolve the problem or you do not want to raise it directly with us, you can contact your local health authority.

The list here shows some of our products and services. Ask the pharmacist for details.
